Fictional campus library policy

Practice document for the AI workshop | Version 1

These rules are invented for a classroom exercise. They do not describe the actual policy of BGS College or any other library.

Borrowing rules

Borrowing limit. A student may have at most two library books checked out at the same time.

Loan period. A borrowed book may be kept for seven calendar days.

Available copies. A book can be borrowed only when at least one copy is available. Each successful borrowing reduces the available copies of that title by one.

Borrowed record. A successful borrowing records the book title and the fact that it is checked out. An unavailable or unknown title must not change the inventory.

Returns. A book may be returned only when the current record shows that it is checked out. A successful return adds one available copy and removes that loan from the borrowed record.

All borrowing and returning in this exercise are local simulations. No real library record is created or changed.

Opening hours and renewals

These rules are invented for the classroom exercise and are not an announcement of real college services.

Opening hours

The library is open from Monday to Saturday, from 9:00 AM to 5:00 PM. It is closed on Sunday.

Renewal rules

Number of renewals. A borrowed book can be renewed once.

Reservation condition. Renewal is allowed only when no other reader has reserved the book.

Extension period. An accepted renewal extends the loan by seven calendar days.

Request timing. A renewal request must be made before the current due date. A request does not count as an approved renewal until the reservation condition has been checked.

Use the statements on these two pages as the source of policy facts for the workshop exercise.
